Besides himself, he has ordered several other actors and will have a regular vaudeville to show in towns where there is no opera house.

He has been in the show business for several years and has gained considerable experience in this line since he has made his debut from Dothan.

## MRS. EVANS DIES HERE

Mrs. J. H. Evans, of Youngstown, Fla., died here this morning in a local infirmary, after an illness of some time. Mrs. Evans was brought to Dothan a week or two ago from Youngstown. She is survived by her husband, who was here at the time of her death. The remains were sent to Youngstown today, where the burial will take place.

### Hero Conservation.

We ought to do something for hero conservation. They wither and pass away too rapidly. At the rate we are forgetting our heroes, we will have none to pin medals on a dozen years from now. Heroes are not lasting like they used to, it looks like. We turn out some night after supper, or get up and make a few before breakfast some morning and give them an aeroplaning for a few weeks, and some day we forget them just as quickly.

An ex-hero is a pitiable sight. You rarely ever see one, for when a hero sees that it no longer stays, he gets out of the limelight.

How many people can tell you about Dewey, and what he is doing, and where he is living now? How many people could you find ten or twelve years ago, who couldn't tell you all about Dewey? His fame hardly lasted till he was royally driven under the great loving arch in New York, and some of the papers had threatened to run for president. He would have made a good race then, and now couldn't carry his own ward as garbage commissioner.

When Dewey got married and deeded his wife the home the people has presented him with, the same papers that had been lauding his valor to the skies, tried to rend his character and made light of his before-breakfast victory in Manila bay.

Hobson is about the only man it took on. He liked to have lost it however, because a lot of silly women grabbed him one day and kissed him till he was black in the face and foamed at the mouth like a mad dog.

That unfortunate affair stirred a laugh that went rippling around the world, and when it got around his reputation as a designer of naval vessels was damaged, although he was considered, the highest authority on battleship construction in the world.

When the government failed to retire him on half pay, after his eye sight had been damaged in its service, he quit the navy and entered the political arena. He won a seat in congress over one of the most able men in Alabama, and when that term expired, and went out in his district and on another seat. He will win another, when this one gives this out. He is doing a good work as a congressman.

But his case proves the exception to the rules. Heroes don't last till the banners are torn down.

Had there been enough voting sports in the country at one time John L. Sullivan could have been elected president, but he had sense enough to get out of the ring when he floored his man, and did the proper thing. His name will live longer than that of Jeffries or Johnsing. Some think that Jack will be doing time in some stock-age in three years longer.

Dr. Cook had us a few months ago. Now look at him. He sealed up a barrel of dough while his game was working and before Peary was heard from and up to this good hour, many people don't know who discovered the north pole, if indeed it has ever been discovered.

The Wright boys pulled off the trick that fired the aeroplanes ambition of the world, and now you never see their names mentioned. They are busy building them, but

spending mighty little time speeding them. They probably knew when to step behind the curtains.

Read old files of the paper that told of the party returning from Elba. The same papers are not maintaining a news bureau in his cow shed any more.

This popular idol business doesn't last as long as a light frost before a rising sun.

Is it because they are made of the wrong material? No, hardly that. We wear our heroes lightly.

### Forget Alabama

The Atlantic Coast Line railroad has issued a handsome folder, telling of all the good things that can be found along the line of this road, from Richmond, to St Petersburg, Fla., going through Virginia, North Carolina, South Carolina, Georgia, and Florida, but it missed Alabama as clear as a whistle. Every station, watermelon patch, and cabbage orchard from Richmond to St. Petersburg is written up, and brilliantly illustrated with half tones taken on the spot.

Alabama has some of the line, from the Chattahoochee river to Montgomery, and then to Laverne and Enterprise and Elba, and Headland and Abbeville.

We of Alabama think the press agent of the Coast Line could have found something worth while over here, if the road had provided him with a pass in Alabama, when he was out making up the data for this most handsomely illustrated folder.

There are many people who ride over the coast line, that are not seeking palatial hotels in Florida, but who are the real creators of our wealth, people who dig it from the ground, and they are looking all the time for cheaper ground. It the Coast Line could induce people to settle along its line, and go into the agricultural business, then the road has a guaranteed source of revenue from the product that must be shipped over its lines.

The next time the roads spends a lot of money getting up a folder on the good things along its road, we hope that it will call on some of the Alabama editors along the way to furnish some copy.

### Good Selection.

Hettie Green has a boy in Texas. Not so much a boy either, for he has to hire a dray to haul him around in, as he weighs about three hundred pounds. He went to Texas a republican but got over it in the recent campaign, and the governor-elect appointed him to some honorary job, like colonel.

The good thing about Governor Colquitt's selection is, that the man is able to buy a brand new uniform, if the exigency of the occasion demands, for his mother, back in New York, carries a flour sack around with her, stuffed with green goods, where there are so many bargains to be had in job lots of stock in Wall street. She has the reputation of having the cash to buy any loose railroads, or banks, that go at bargains.

The man who has been smitten with politics, and got over it, by the aid of a word of voters, ought to settle down and live a different life. Such a one could not enter business for himself again too soon. Not enough has-been politicians ever come back to make the game worth while.

Old Joe Cannon will have about a month more of bossing to do, but after that time, should he start to pouring coarse sand into the bearings of the congressional mill, it will take two modern vacuum cleaners to pull the dust off the rear of his pants.

There are Alabama yams, and then there are Alabama yams. Be sure and call for the Houston county yams.

The men who are worth a cool million never let it get cold.

# BATH ROBES

### Timely Suggestions For Investors

There is a scarcity in houses to rent for from \$12.50 to \$15 a month. We have an average of ten applications a week for houses of this class. Eight hundred dollars invested in a lot 270 feet east front, two blocks from the new high school building and towards Main street will furnish five lots for houses, say to cost \$1,000 each. On an investment of \$1,160, one can have an income of \$180 a year easily. This property is in a white section and will advance in value rapidly.

Take a look at a new six-room residence on South Applecree street on a two-thirds of an acre lot we are offering at \$1,600. It's worth a fourth more.

West Main property is as cheap as it will ever be. If you contemplate owning a home on one of the best streets in Dothan, it would be well to investigate the homes we have for sale on this street.

With the improvements just completed on East Main street, property in that part of town is increasing in value. We have an elegant seven-room house, with all conveniences, almost new and on a lot 100 by 226 feet and 140 feet adjacent frontage for sale. The price is \$5,000. It's worth \$6,000.

We have for immediate sale 160 acres on public road half mile from city limits, well improved and naturally fine land. We can sell at \$25 per acre if taken before Dec. 15.

Over a hundred Houston county farms for sale

### Have You a Policy?

In the **MUTUAL PROTECTIVE ASSOCIATION** of Dothan, Ala. If not, Why not?

Remember that the Home Office is not located in New York, Chicago, San Francisco, but that it is right here in Dothan, where the policies are issued, and where all monies are received and paid out.

Absolute; no delays in payment of claims. In case of death or accident, we can pay you policy in 24 hours.

Average cost last year to carry a \$1000 policy on this plan was about two cents a day.

**Cheapest, Safest, and Best**

**Insurance on Earth**

Every dollar paid stays right at home. If you believe in keeping your money at home, and saving from \$10 to \$40 a year on each thousand dollars insurance, you should take out a policy in this Company.

For further particulars, address.

When all conventions have been held to mature educationally, because every parent is painfully anxious that his sons shall pass the standard which will free them from certain years of military service, says the Manchester Guardian. A visitor was conversing with his host's small son, and opened, as a matter of course, with the words, "Do you go to school now?"

"Yes."

"And what do you learn? Reading, writing, sums?"

"Oh, yes, and I learn religion too."

"Religion?"

"Yes, I learn the little religion, which teaches that we all come Adam. But my elder brother is in a higher class; he learns that big religion, and that teaches that we all come from monkey."

**BURKETT & WHITEHEAD.**  
At the Thrasher Old Stable.

Byrd Farmer, Jr., and Misses Jame Farmer, Cora Glenn Faircloth and Lucile Whiddon visited Headland Sunday afternoon.

Fire of unknown origin this morning at 2:30 o'clock destroyed the residence of John Watson on West Washington Street. The house was the property of Miss Irene Young and was insured. The household effects were completely destroyed and no insurance was carried.

Mr. and Mrs. Watson were away from the home at the time of the fire and it is not known how the flames started.

Mr. Watson had been at home yesterday afternoon and stated that there was no fire at all in the building then.

The alarm was not turned in until the fire had gained good headway and it took good work by the fire department to save the adjoining buildings. The smokehouse belonging to Mr. Jeff Hughes, which was located just a short distance from the burned building, had caught when the company arrived and the flames were burning rapidly, but were extinguished.

Please except thanks" For sale by N. H. McCallum

## "The Company of The South" When You Invest In An Empire Policy.—

You're investing your money in a Southern company—a home company—a company working for the good of the South. And in return, you'll get results that will prove one of your best investments.

Founded on the laws of Georgia, old line, legal reserve, the Empire offers you safe, sane insurance protection. Its contracts are liberal, and fall from technicalities.

Fix "Empire" in your mind, and when you're ready for life insurance, "ask an Empire agent."
